

END THE COMPROMISE

Produce highly compressed, lossless quality QuickTime movies of onscreen activity. Perfect for cross-platform training videos, animated text and more.

ENSHARPEN ALLOWS YOU TO:

- Maintain 100% of image quality through compression.
- Get small, deliverable file size.
- Work with your preferred video content creation tools on both Macintosh and Windows.
- Use the freely distributable decoder to share your cross-platform videos with everyone.

This QuickTime delivery codec is the answer for users who need an easily available, compressed, real-time, fast codec that works on multiple platforms. Look to EnSharpen for the best screen recording and animated content compression in the industry.

100% OF IMAGE QUALITY THROUGH COMPRESSION

EnSharpen lives up to its name. This lossless codec gives you the quality where it really counts—since it maintains 100% of the image quality through compression, you're rewarded with crisp screen images, precise text and clear animation.

DELIVERABLE FILE SIZE

Expand your delivery options! Smaller files make it easy to deliver via the Web, so you can avoid bandwidth issues. In addition, you can fit more content on CD-ROMs and DVDs to create fuller, more complete projects.

WORK WITH YOUR PREFERRED VIDEO CONTENT CREATION TOOLS

Get all the codec's benefits while still using the tool of your choice. EnSharpen seamlessly integrates with Camtasia Studio, QuickTime Pro and all of the popular video editing and content creation tools on Macintosh and Windows.

FREELY DISTRIBUTABLE DECODER TO SHARE YOUR VIDEOS WITH EVERYONE

The freely distributable decoder makes it easy for everyone who has the free QuickTime player to view your small, high quality videos.

Minimum System Requirements:

QT 5.0.5 or later Mac OS X 9.x/OS X 10.x
OR Windows 98/ME/2000/XP with DirectX v3
or later 32 MB RAM (128 MB recommended)
