

Taking Your First Capture

Taking a capture with *SnagIt* is simple. Follow these steps to complete and view your capture:

1	Make sure what you want to capture is open on your computer desktop. Without minimizing what you want to capture, open <i>SnagIt</i> .
2	Select a capture profile from the <i>Basic capture profiles</i> .
3	Click Capture .
4	The <i>SnagIt</i> window disappears and you see a box with an explanation of how to complete the capture. Follow the instructions to complete the capture.
